Morley Community Church Web Site Privacy Policy

This privacy policy is for the website of Morley Community Church.

Website Visitor Tracking

Your IP address is automatically captured by the software that tells us how many people have visited our site. However, we never do anything with IP address data. Our software also tells us which pages are most visited but will not store, save or collect personal information.

External Website Links

We identify a few other sites that we think may interest you. When you click through to those sites, you leave the Morley Community Church web site and our Privacy Policy has no jurisdiction on the third party site you visit. You will need to check their Privacy Notice if you wish to find out how they handle any information collected during your visit.

Downloads & Media Files

Any downloadable documents, files or media made available on this website are provided to users at their own risk. While all precautions have been undertaken to ensure only genuine downloads are available users are advised to verify their authenticity using third party anti-virus software or similar applications.

Contact & Communication With us

Users contacting us through this website do so at their own discretion and provide any such personal details requested at their own risk. Your personal information is kept private and stored securely until a time it is no longer required or has no use.

Social Media

We have official profiles on social media platforms but users are advised to verify authenticity of such profiles before engaging with, or sharing information with such profiles. We will never ask for user passwords or personal details on social media platforms. Users are advised to conduct themselves appropriately when engaging with us on social media.

Our website features social sharing buttons, which help share web content directly from web pages to the respective social media platforms. You use social sharing buttons at your own discretion.

Cookies

Our website uses cookies – small text files that are placed on your machine to help the site provide a better user experience. In general, cookies are used to retain user preferences, store information for things like shopping baskets, and provide anonymised tracking data to third party applications like Google Analytics. As a rule, cookies will make your browsing experience better. However, you may prefer to disable cookies on this site and on others. The most effective way to do this is to disable cookies in your browser. We suggest consulting the Help section of your browser or taking a look at the About Cookies website which offers guidance for all modern browsers.
